Transnet Port Terminal claims PMR Africa Awards in Cape Town

On Monday 27th June 2016 in Woodstock, Cape Town, Transnet Port Terminals [TPT] came out on top at the PMR Africa Awards. TPT's Cape Town Terminals were recognised for their exceptional contributions to the Western Cape region with the Diamond Arrow award as well as a Golden Area being presented to their Terminal Manager, Pamela Yoyo. The results of these awards are based on PMR Africa's annual country survey on the City of Cape Town and Cape Peninsula Region that is independently-conceived, implemented and funded by PMR.africa. The ratings are sourced monthly from top decision-makers to identify contributors to the economic growth and development of SA's municipal districts, provinces and the SADEC countries.

"We are honoured to receive this independent accolade which is intended to recognise leaders in all major industries based on ratings from clients, customers and suppliers. To be acknowledged by the people we work with in our industry means so much to us and just shows that our efforts to exemplify practices that support optimum efficiency and delivery at our Cape Town operations has paid off. I am very proud of my team and their continuous zeal and passion that inspires us all and helps move Transnet forward. Well done to all the winners and I am confident we will continue to strive for excellence and work towards creating an even more significant and positive impact on the region's economy," stated Pamela.

The purpose of the PMR Africa Awards is to not only enhance excellence and set a benchmark in the respective industries, but to also acknowledge personnel and staff for creating the perception and reality out there that this company is an undisputed leader in their respective industry. After all, there is a successful team behind each successful and highly rated company, department or institution. The award status criteria has three levels that look to measure companies, institutions, government entities and individuals on their contribution to the economic growth and development of the country, levels of management expertise, implementation of corporate governance and levels of innovation. A Diamond Arrow award ranks a company as first overall in their industry with a rating of outstanding, followed by a Gold award and then Silver/Bronze.
